Oklahoma Dementia Care Network (OkDCN): What is it?

- ▶ A statewide collaborative effort focused exclusively on building healthcare workforce capacity
- ▶ Seeking to improve outcomes for persons living with Alzheimer's disease and related dementias (ADRD)
- ▶ Principal Investigator: Lee Jennings, MD, MSHS, Geriatric Medicine
- ▶ Co-principal Investigator: Tom Teasdale, DrPH, Public Health
- ▶ Funded by HRSA Geriatrics Workforce Enhancement Program Grant, #U1QHP33082
- ▶ www.dcn.ouhsc.edu

Please Call (405)271-3050 to schedule an appointment or to learn more about our services.

Memory Care for Older Adults

Comprehensive, coordinated, patient-centered care for memory disorders, including Alzheimer's disease and other dementias.

We also offer diagnostic visits for patients with cognitive concerns who need further evaluation.

Our team includes geriatricians with expertise in cognitive evaluation, specialty-trained PAs, social work, pharmacy, and neuropsychology support. We also work in collaboration with OU Health Neurology and Psychiatry.

Patients who have any of the following may benefit from Memory Care Clinic consultation:

- Memory/cognitive concerns or abnormal cognitive screen needing further evaluation
- Alzheimer's disease or other dementias, especially with behavioral symptoms or safety concerns
- Caregiver strain or questions about dementia
- Difficulty with daily activities due to problems with cognition
- Driving concerns
- Depression/mood disorders impacting daily activities
- Polypharmacy or high risk medication use that may worsen cognition
- Need for goals of care conversation and advance care planning

INCOG AAA Long-Term Care Ombudsman Program covers Tulsa, Creek and Osage Counties

The role of the Ombudsman is to:

- improve quality of life of residents in nursing homes, assisted living facilities and residential care homes through advocacy, education and empowerment;
- give a voice to residents, family and friends who may feel powerless;
- mediate between family, friends, staff and residents;
- hear complaints and concerns of residents, and investigate as needed;
- work towards finding a successful solution to residents' problems;
- serve as resource to residents, residents councils, facility staff, and community organizations regarding Residents Rights and other topics;
- for additional information or to become an Ombudsman Volunteer, call (918) 579-9477.

FREE CLASSES AND WORKBOOKS

Healthy Brain, Healthy Mind helps older adults understand the many ways they can maintain a healthy brain. Through more than a dozen methods - such as establishing good habits and routines, physical activity and nutrition. Participants will learn how to improve their physical and mental health.

Walk away with tools for:

- Setting goals and finding success
- Identifying signs of stress and depression
- Engaging in healthy activities
- Dealing with the blues
- Thriving vs. getting by, and so much more

POWERFUL TOOLS FOR CAREGIVERS

This class series is designed to help family caregivers take better care of themselves while caring for a family member or friend.

Walk away with tools for:

- Reducing stressors
- Changing negative self-talk
- Communicating your needs to family members and healthcare or service providers
- Effectively communicating in challenging situations
- Dealing with difficult feelings
- Making tough caregiving decisions.

FOR INFORMATION ON CLASS LOCATIONS, DATES AND TIMES
PLEASE VISIT OUR WEBSITE: WWW.OHAI.ORG

Classes are offered both online and in-person.

Connecting People to Care

Tom shows up at Sue's organization.

Screening

Sue screens Tom and identifies that he has additional needs.

Referral

Sue uses Unite Us to gain digital consent and electronically refer Tom to multiple community partners. Through the platform, she can seamlessly communicate with the other providers in real time and securely share Tom's information.

Resolution

Referral is accepted by in-network partner.

Feedback

As Tom receives care, Sue receives real-time updates and tracks Tom's total health journey.

OkDCN provides Nursing Home Training and Dementia Education Training

Scheduling Now! In-Person In-Services and Training for Trainers Events

Oklahoma Dementia Care Network **In-Services**

Free Geriatrics Education for Nursing Home Staff

A nursing home in-service can be a virtual or in-person learning opportunity for nursing homes staff. Led by nurses, these workshops address important topics in dementia care. There is no cost to schedule a nursing home in-service for your team.

How are Patient Care Needs Addressed?

- Virtual or in-person collaborative, HIPAA-compliant nursing home trainings
- Addressing geriatric health concerns
- Discussing specialized topics relevant to nursing homes
- Using experiential learning to determine best options in care of the older adult

Email OkDCN@ouhsc.edu to coordinate an in-service training or complete this form below.

Topics

- Walking with Dementia
- Bathing without a Battle
- Advanced Dementia Care
- Dementia Care Teams
- Person-Centered Care
- Infection Control in Dementia Care
- Skin Integrity in Dementia Care
- End of Life in Dementia Care
- What Matters Most and Dementia Care
- Mobility and Dementia Care
- Medications and Dementia Care
- Mentation and Dementia Care

This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under government contract CE0010320. Its contents are solely the responsibility of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS or the U.S. Government.

Train the Trainer Workshop

Oklahoma Dementia Care Network

Mark your calendars, and join us for a Train the Trainer Workshop, presented by Oklahoma Dementia Care Network. You'll elevate your Health Programs and Career Programs with dementia-specific content for short-term or full-time health courses (ie. CNA, CMA, CMA CEU & LPN). Program coordinators and educators are ideal attendees for this workshop.

Every participant will receive certification at the conclusion of the training in four modules that address the "4Ms" in the context of dementia care: What Matters, Medication, Mentation, and Mobility. The "4Ms" provide a framework for helping system leaders and frontline teams deliver high-quality, age-friendly care. You will leave the training with curricula and materials to integrate this content into your programs.

February 23, 2023, 9 am – 4 pm
